

# Butler-Dearden Paper Service is Proud to be FSC Certified

SCS-COC-001445

## What is FSC?

The Forest Stewardship Council (FSC) is an international non-profit organization that oversees the responsible management of the world's forests.

## What does the FSC logo mean to the consumer?

Products with the FSC logo have been FSC certified. Certification is a means of letting the consumer know that the product was made within the high standards set by the FSC. These standards ensure that forestry is practiced in an environmentally responsible, socially beneficial and economically viable way.

## Are there different types of FSC Certification?

Yes, there are 2 types of certification: forest certification and chain-of-custody certification. Forest certification encompasses forest management activities and is held by forest landowners or managers. Chain-of-custody certification is a tracking process used to ensure that the product that enters the marketplace has followed FSC standards throughout the manufacturing and distribution process.

## What manufacturers and which products distributed by Butler-Dearden are FSC Certified?

Butler-Dearden offers a wide variety of FSC certified products including those made by Cascades Fine Paper, Domtar Papers, Smart Papers, National Envelope and Nekoosa Coated. Among the uncoated FSC certified grades are **Rolland Opaque30, Hitech30, Domtar Hots, Genesis, Nekoosa Linen and Bond, Solutions and Proterra**. Coated papers with FSC certification include **Kromekote, Ancora C2S board, Nekoosa Coated gloss and dull, and some Platinum gloss and silk**.

## If I am an FSC chain-of-custody certification holder can I claim any product with the FSC logo is certified?

No, you must purchase the product from a certified FSC chain-of custody holder. Once the paper is owned by a non-FSC certified company the chain breaks and the paper is no longer FSC certified. This is to ensure that all FSC product entering the marketplace has adhered to their rules and regulations.

## How can I find out more about FSC?

Contact your Butler-Dearden sales representative to find out more about FSC or visit their website @ [www.fscus.org](http://www.fscus.org) .
